TOTALS:	4488	1126	41.4	70.06	43.4	

Scoring of the Laps in the 11th Annual Relay For Life

- 1] Teams are made up of individuals of varying ages, male and female
- 2] Each team had one person at a time wear a timing chip to record their number of laps
- 3] The distance of the track is 400m which equals 4 laps to the mile
- 4] Recording of laps began on Saturday May 19, 2012 and ended on Sunday May 20, 2012
- 5] While this was not an official race, participating teams are recognized for the total number of laps they complete
- 6] An honor system was in place that determined
 - A] That the participant completed the entire lap
 - B] No adjustments were made for participants who accidentally crossed the timing mat without completing an entire lap
- 7] The TOTALS reported here are close estimates for team performances

NOTE: Each year the enthusiasm for completing laps by teams is becoming more popular, more intense among participants and therefore more competitive. In effort to accommodate these dynamics, specific rules and regulations will be implemented to make the event more safe, more fun and more accurately scored.
